

BioThane® GOLD reflective (Leashes & Collars)

BioThane® GOLD reflective is harder to the touch with good flexibility even in cold temperatures. The material is easy to grip, has very good abrasion-resistance and coating tear strength and fair weather resistance. The material is ideal for dog collars and leashes. Thanks to the reflective tape the leashes and collars are very good visible in reduced visibility when illuminated (visible from about 100 m).

Biothane Reflex Gold colours overview

Warning: Please be aware that fittings may leave imprint on Biothane® over longer time – these are not objects to make a claim as well as the mechanical damages.
